The password is 00000a, if the app will ask to update the device press YES and wait until is done.

After the update is done wait until the inverter is turned on full (DC, AC led are steady green) and connect to the inverter in the same way.

After the login to USER is done follow the next screenshots:

1.Press on the 3 Dots from right corner:

2.Go to Settings –Router connection settings –select the router and put the password.
